

Link Repo GitHub: https://github.com/GLQ5709/Pemrograman_Web_2.git

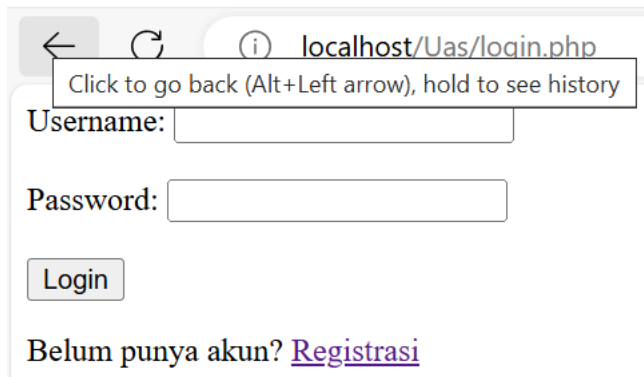

Link Webhost: <https://ryoakbar.000webhostapp.com/login.php>

Penjelasan:

1. Pertama, kita diwajibkan untuk login. Jika tidak punya maka akan harus registrasi
2. Kedua, jika tidak punya akun maka kita diharuskan registrasi akun yang akan tersimpan ke database
3. Ketiga, Jika sudah registrasi maka data akan tersimpan ke database dengan nama table tabel_login dan coba untuk login
4. Keempat, jika kita login maka akan menuju ke dashboard.php
5. Kelima, kita coba untuk submit data dan jika berhasil maka data akan tersimpan ke database dengan nama data_grup
6. Keenam, jika data sudah diinput dan masuk ke database. Maka, jika kita klik button Riwayat akan muncul hasil dari apa yang kita input beserta button edit, delete & print PDF
7. Ketujuh, jika kita mencoba untuk edit data maka akan muncul tampilan untuk edit data dan jika di pilih button update. Maka, data yang sebelumnya akan berubah seperti yang di update
8. Kedelapan, kita dapat menghapus data yang sudah kita input ke database.
9. Kesembilan, kita dapat melakukan print ataupun menyimpan dengan file PDF
10. Kesepuluh, kita dapat logout dari akun dan kita akan diarahkan ke login.php

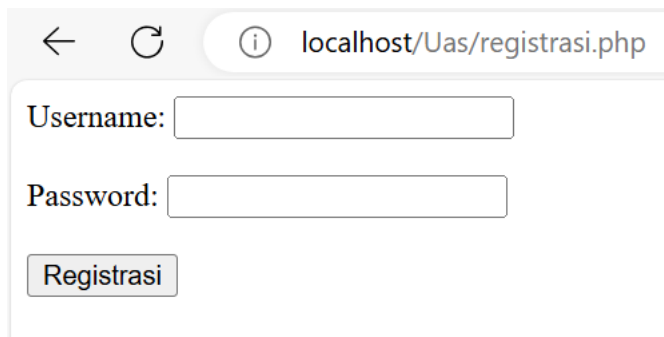

Output:

1.

A screenshot of a web browser showing the login page. The address bar displays 'localhost/Uas/login.php'. Below the address bar, there is a text input field for 'Username:' and a password input field for 'Password:'. A 'Login' button is positioned below the password field. At the bottom of the form, there is a link that says 'Belum punya akun? [Registrasi](#)'.

2.

A screenshot of a web browser showing the registration page. The address bar displays 'localhost/Uas/registrasi.php'. Below the address bar, there is a text input field for 'Username:' and a password input field for 'Password:'. A 'Registrasi' button is positioned below the password field.

9.

The image shows a web browser window with a print dialog open. The print dialog is titled "Print" and shows "Total: 1 page". It has a "Printer" section with a dropdown menu set to "Save as PDF". The "Layout" section has "Portrait" selected. The "Pages" section has "All" selected. There are "Save" and "Cancel" buttons at the bottom of the dialog.

The background page is titled "Data Tim Croatia" and shows the following information:

7/2/24, 11:10 PM Print Data

[Kembali ke Dashboard](#)

The bottom part of the image shows the same page content without the print dialog, confirming the data displayed in the table.

10.

The image shows two screenshots of a web application. The top screenshot is of a dashboard page at `localhost/Uas/dashboard.php`. It contains several form fields: 'Nama Group' with a dropdown menu showing 'Group B', 'Nama Negara' with a dropdown menu showing 'Spain', and four text input fields for 'Jumlah Menang', 'Jumlah Seri', 'Jumlah Kalah', and 'Jumlah Poin'. Below these fields are three buttons: 'Submit', 'Riwayat', and 'Logout'. The 'Logout' button is circled in red. The bottom screenshot is of a login page at `localhost/Uas/login.php`. It contains two text input fields for 'Username' and 'Password', followed by a 'Login' button. At the bottom, there is a link that says 'Belum punya akun? [Registrasi](#)'.
