Penjelasan:

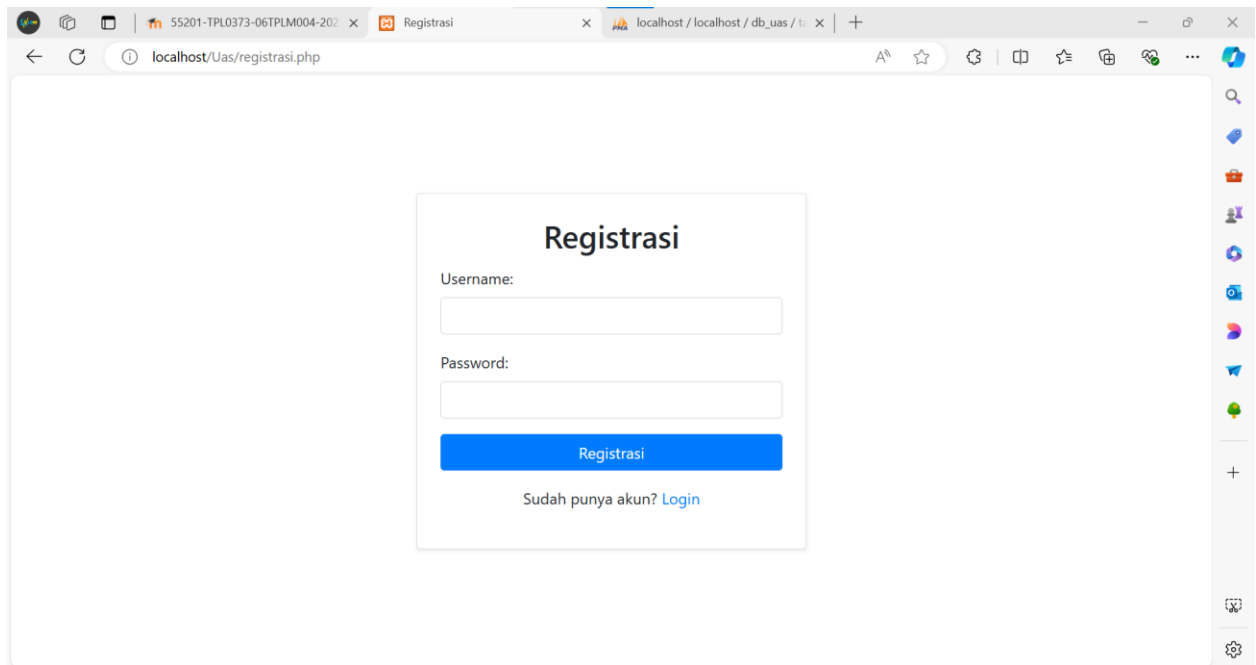

1. Pertama, kita diwajibkan untuk login. Jika tidak punya maka akan harus registrasi
2. Kedua, jika tidak punya akun maka kita diharuskan registrasi akun yang akan tersimpan ke database
3. Ketiga, Jika sudah registrasi maka data akan tersimpan ke database dengan nama table tabel_login dan coba untuk login
4. Keempat, jika kita login maka akan menuju ke dashboard.php
5. Kelima, kita coba untuk submit data dan jika berhasil maka data akan tersimpan ke database dengan nama data_grup
6. Keenam, jika data sudah diinput dan masuk ke database. Maka, jika kita klik button Riwayat akan muncul hasil dari apa yang kita input beserta button edit, delete & print PDF
7. Ketujuh, jika kita mencoba untuk edit data maka akan muncul tampilan untuk edit data dan jika di pilih button update. Maka, data yang sebelumnya akan berubah seperti yang di update
8. Kedelapan, kita dapat menghapus data yang sudah kita input ke database.
9. Kesembilan, kita dapat melakukan print ataupun menyimpan dengan file PDF
10. Kesepuluh, kita dapat logout dari akun dan kita akan diarahkan ke login.php. Walaupun kita mau back tidak akan bisa kalua tidak login terlebih dahulu
